Yes, I will be taking notes so that I can brief Carolyn and, for ST-12, Eva, when EPA returns.

Wayne-

Sorry I did not realize that Wood was not copied on your email, but I forwarded it to Don today and he is sending out the invites. We will hold the calls with ADEQ's team and send the handouts out to everyone. We can respond to questions from the EPA team when they return. Thanks.

Cathy

ADEQ's opinion is to proceed with scheduled Base Closure Team information dissemination. ADEQ believes project updates are important. ADEQ anticipates informational slides will be transmitted by 1-16-2019. ADEQ is available for a 1-17-2019 conference call if AMEC (Wood) wishes to verbalize base-wide site updates and elaborate upon update information.

Please note ADEQ will not provide decisions or opinions on behalf of the regulatory agencies. ADEQ requires US EPA input during consensus building discussions and decision commitment. ADEQ anticipates that US EPA will have their own clarification requests resulting from information updates. ADEQ anticipates USAF and AMEC (Wood) will respond to all subsequent US EPA comments and questions.

Thank you for the opportunity to comment.

Wayne-

We are working on preparing the slides/materials for next week's BCT call and will be sending them out to the full team. Please provide your input on whether we should have the call as scheduled or postpone it while EPA is on furlough. Thanks.

Cathy
